

# Evans Creek Preserve Trail

Sammamish, WA  
November 2, 2019  
and Dec. 27, 2019

Beautiful 2 mile all-terrain chair trail but you can make it as long as you want. Three grades in park are well marked; one trail marked accessible for manual wheelchairs, but we did not take. Unfortunately on the moderate trail, some bridges have too high of step to get on bridge, so we had to turn around. Bathroom was "accessible" but the lip to get into the bathroom was too high to cross. \*\*Update: Sammamish Parks has repaired this area and the bathrooms are now accessible 😊 We emailed the park: further ADA changes forthcoming regarding our concerns.
