

Alki Beach, Seattle

May 27, 2019. First trip on sand with the all-terrain chair (GRIT). Good trail for using the GRIT beach tires!
Note: The soft sand was extremely hard to traverse but when we made it to the packed sand, we had no problems moving around. We were thankful to have a helpful individual offer to help push me back. Really required my help pumping, in addition to Kennedy and this third person.
